this edited volume examines the relationship between economic ideas economic policies and development

institutions analysing the cases of 11 peripheral countries in europe latin america and asia across the nineteenth and twentieth centuries it sheds light on the obstacles that have prevented the sustained economic growth of these countries and examines the origins of national and regional approaches to development the chapters present a fascinating insight into the ideas and visions in the different locations with the overarching categories of economic nationalism and economic liberalism and how they have influenced development outcomes this book will be valuable reading for advanced students and researchers of development economics the history of economic thought and economic history

john maynard keynes once observed that the ideas of economists and political philosophers both when they are right and when they are wrong are more powerful than is commonly understood the contributors to this volume take that assertion seriously in a full scale study of the impact of keynesian doctrines across nations their essays trace the reception accorded keynesian ideas initially during the 1930s and then in the years after world war ii in a wide range of nations including britain the united states france germany italy japan and scandinavia the contributors review the latest historical evidence to explain why some nations embraced keynesian policies while others did not at a time of growing interest in comparative public policy making they examine the central issue of how and why particular ideas acquire influence over policy and politics based on three years of collaborative research for the social science research council the volume takes up central themes in contemporary economics political science and history the contributors are christopher s allen marcello de cecco peter alexis gourevitch eleanor m hadley peter a hall albert o hirschman harold james bradford a lee jukka pekkarinen pierre rosanvallon walter s salant margaret weir and donald winch

essentials of economics second edition is a text intended for a one term course in economics for college students it attempts to teach students of the analytic way of studying economics and provides the basics of the concept of political economy and uses this knowledge to explain the choice process in the public sector the book presents a comprehensive survey of economics it contains chapters that highlight the importance of the microincentive structure of macroeconomic markets identifies the determinants of supply as well as the impact of public policy on those determinants and presents both adaptive and rational expectations theory the linkage between production theory and the cost curves faced by the firm examination of the market structure and the role of regulation and deregulation are covered as well economics students will find the book very useful

13 scholars contribute to this survey of past discussions of the workings of economic structures and of justice in interpersonal relations cultural institutions and the social order they investigate the sources in each historic period from the world of the old testament and the ancient greeks through to spanish scholasticism and its offshoots in the spanish americas of the 18th century and relate the ideas of writers

from the past to modern discussions

providing an in depth novel analysis of education s role in today s economy by scrutinizing its theoretical underpinnings this volume critiques the suitability of the current dominant economic framework for education and for shaping educational policymaking worldwide critically examining the history and philosophy that underpin our present societal understanding of the link between economics and education the book argues for an urgent redefining of education s role in the economy based on intellectual foundations that significantly differ from our current dominant conceptions across seven chapters the book posits that the adoption of a new philosophical framework the reshaping of economic and educational aims and the adjustment of our educational system are each necessary to better promote human flourishing ultimately providing a platform to entirely reconsider the idea that the primary aim of education is to serve the economic system in particular economic growth this book will appeal to scholars researchers and postgraduate students studying educational policy the philosophy of education and the history of education more broadly education policymakers and academics studying education and the economy may also find this book of interest

this volume has as its focus the role of the marshall plan as both a force in the transformation of european economic practices and a stimulus to political integration in europe this organizing theme is framed in terms of two other issues that are central to contemporary debates in international political economy and geopolitical studies the origins and development of the cold war and the growing globalisation of the world economy in relating the marshall plan to these issues this book goes beyond the typical diplomatic history approach to place the plan in the context of both the political economy of late twentieth century europe and the impact of american models of business and government that came with the plan

worldwide tourism is the third largest economic activity in direct earnings after petroleum and automobile industries and by far the largest one if indirect earnings are also taken into consideration taking into account the profound economic impact the tourism and hospitality industries can have on regions and cities around the world further research in this area is critical global dynamics in travel tourism and hospitality takes a holistic approach to tourism and hospitality operations education and research highlighting the latest research in the field real world examples of how these industries are shaping economic development as well as future outlooks and opportunities for growth this publication is an essential reference source for researchers professionals and graduate level students
